Tufts is implementing a new Integrated Student Information System (iSIS)

Students who plan to return next fall (2013/14) will be the first to use iSIS in April 2013.

Tufts’ new Integrated SIS (iSIS) will completely replace SIS Online.

When it is released next fall (2013/14), iSIS will provide basic functionality to ASE’s graduate and undergraduate students: course registration, access to view eBills, unofficial transcripts, grades, eRefunds, and more. Over time, iSIS will enable us to enhance our services and innovate where we would like, all while providing a dependable and secure technology.

Do I need to do anything now?

No action is necessary at this time. We will provide opportunities to learn more about iSIS next semester, so watch for those announcements!

Advantages of iSIS

- **One place for advising and registration.** Plan your courses, create mock schedules, and view reading requirements in one system.
- **Faster refunds.** With the arrival of eRefunds, managing your refunds will be more efficient. Get started today at go.tufts.edu/ebill.
- Log in to iSIS using **simplified sign-on** at almost any time of the day or night.
- The **enhanced academic advising** and self-service planner in iSIS will help students map out their course schedules semesters in advance.
- **A better view of you:** your courses, schedule, student financials, contact information, links to financial aid, and more, all in one place.
