Tufts is implementing a new Integrated Student Information System (iSIS)

Students who plan to return next fall (2013/14) will be the first to use iSIS in April 2013.

Tufts’ new Integrated SIS will completely replace the current student information system.

When it is released next fall (2013/14), iSIS will provide basic functionality to PHPD students in a user-friendly and cross-school platform: course registration, access to view bills, unofficial transcripts, grades, and more. Over time, iSIS will enable us to enhance our services and innovate where we would like, all while providing a dependable and secure technology.

Advantages of iSIS

- Plan your courses and view reading requirements in one place
- Create mock schedules
- View advising worksheets that facilitate conversations with advisors
- View your financial record in one place
- Update your contact information in iSIS

For more information about iSIS at PHPD or Tufts University’s SIS Project, contact Janice Gilkes, PHPD Registrar, at Janice.Gilkes@tufts.edu, or visit go.tufts.edu/sis.

Do I need to do anything now?

No action is necessary at this time. We will provide opportunities to learn more about iSIS next semester, so watch for those announcements!
