iSIS

Integrating data across Tufts.

1 **Make an appointment with your advisor**
Discuss your fall 2013 courses with your advisor, who can release your registration hold in iSIS.

2 **Log in!**
Take time to become familiar with iSIS, review your data, and clear any administrative or financial holds on your account in advance of registration. When your registration date and time become available, you may view them under the Enroll menu, "View My Enrollment Dates."

3 **Prepare to register for fall 2013 courses in iSIS**
Add classes to your Shopping Cart. Be sure to place second choices in your Planner, just in case a course fills up before your registration time.

4 **Registration Day!**
Log in to iSIS in advance of your registration time. If you've prepared your Shopping Cart, you need only press "Enroll." Keep in mind that you may need to pull a few second-choices from your Planner (see step 3!).

At any point, should you need help, email iSISsupport@tufts.edu.
