

Lesson 24:
Final Project
Showcase

Lesson 24 Overview: Lesson 24 brings the CAL-ScratchJr curriculum to a close. Children share their final projects, acknowledge those who helped them, and reflect on their learning process.

Powerful Ideas from Computer Science: The Design Process, Algorithms
Powerful Ideas from Literacy: The Writing Process, Sequencing

I. Warm Up: Stلالuna's Birthday Dance Party

- As a class, play Freeze Dance. Dance as if you were attending Stلالuna's birthday party. Have children decide if they want to dance like a bat or a bird.

II. Opening Tech Circle: Final Showcase

- Teachers can share by having children send their final projects through email and accessing the projects on their iPad. The teacher will share his/her iPad screen with the class to show each child's project and have time for the child to explain their work.

III. Word Time: Lesson 24 Design Journal

- In their Design Journals, children write a reflection to answer the prompts: What was your favorite part of Stلالuna's birthday party? What did you learn about ScratchJr?

IV. Closing Tech Circle: Sending Gratitude

- Children will deliver Thank You cards to classmates.
