TUFTS DATA LAB

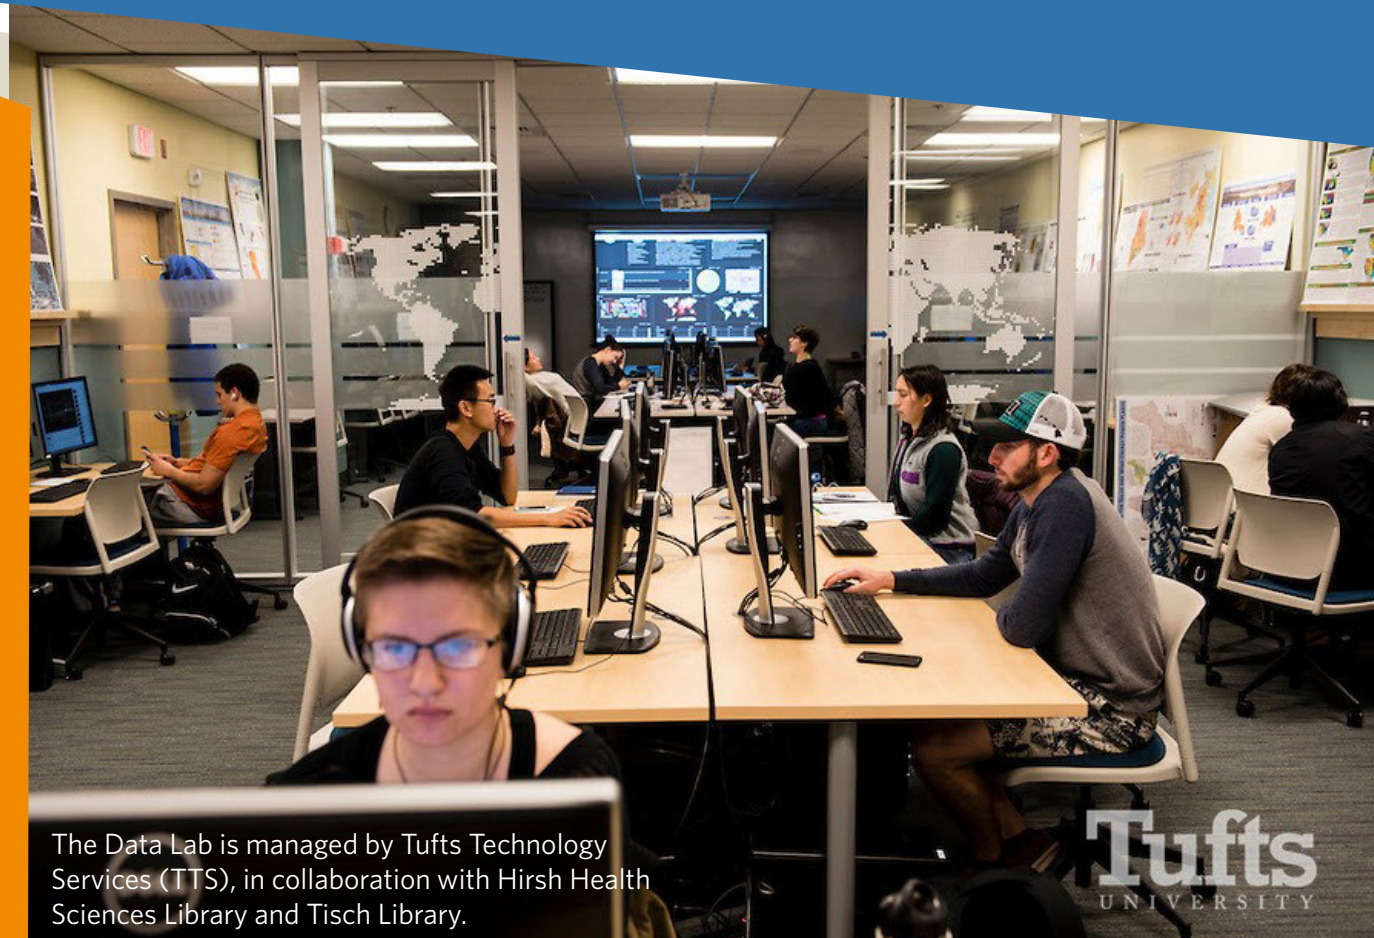

INNOVATE | ANALYZE | VISUALIZE

ABOUT THE DATA LAB

The Medford and Boston Data Labs are teaching and research computing spaces designed to foster collaboration and innovation amongst students, faculty, and staff, across all Tufts' schools and departments.

The Data Lab offers support for:

- Instruction & Training
- Geographic Information Systems (GIS)
- Data Literacy & Statistical Analysis
- Data Acquisition & Engineering
- Data Management & Visualization
- Remote Sensing & GPS Data Collection
- Web Mapping Applications
- Cartography & Digital Design
- Digital Humanities & Text Analysis
- Application Development
- High-Performance Computing (HPC)
- Data Sharing & Preservation

The Data Lab is managed by Tufts Technology Services (TTS), in collaboration with Hirsh Health Sciences Library and Tisch Library.

Tufts
UNIVERSITY

DATA LAB SERVICES

STUDENT LAB ASSISTANTS

The Medford and Boston Data Labs are staffed with Student Lab Assistants who provide immediate, walk-in services and resources to the Tufts community.

To view the Lab Assistants schedule, please visit the Google Calendar on our website: datalab.tufts.edu

ADVANCED CONSULTATIONS

The Data Lab offers advanced consultations and specialty services by appointment with our Academic Data Services team. Please email the support elist to schedule an appointment:
