

Corrigendum, “Payment Mechanisms and Anti-Poverty Programs”, November 2016

Jenny C. Aker, Rachid Boumnijel, Amanda McClelland and Niall Tierney

In preparing the data and .do files for public use, we noticed some errors to the published version of the paper. These errors are independent (and separate from) the online erratum posted on the EDCC website, which included errors during the publication process. These include:

- In Table 2, the mean number of household members in the Cash group should be 9.31, not 9.30
- In Table 3, the coefficient on “Cultivate land” for the “Zap-Mobile” group should be -.01, not -.00.
- In Table 9, the coefficients and s.e. on the “Amount Spent on Children’s clothing” were incorrect. These are now below.
- In Table 10, there are three small rounding errors. These are below.

We sincerely regret the errors.

Panel C: Clothing Expenditures for Muslim Festivals
