

Corrigendum, “Payment Mechanisms and Anti-Poverty Programs”, August 2017

Jenny C. Aker, Rachid Boumnijel, Amanda McClelland and Niall Tierney

In preparing the data and .do files for public use, we noticed some errors to the published version of the paper. These errors are separate from the online erratum posted on the EDCC website, which included errors in the main tables of the paper that were not changed prior to publication. These include:

- In Table 2, the mean number of household members in the Cash group should be 9.31, not 9.30
- In Table 3, the coefficient on “Cultivate land” for the “Zap-Mobile” group should be -.01, not -.00.
- In Table 5, there are some errors to the coefficients and s.e. in Panel B, included below.
- In Table 9, the coefficients and s.e. on the “Amount Spent on Children’s clothing” were incorrect. These are now below.
- In Table 10, there are some rounding errors, also below.

None of these errors change the primary findings of the paper.

In addition, the online version of the appendices on the EDCC website are also incorrect, but these differences were not included in the Erratum. The correct appendix tables are included on Jenny Aker’s website.

We sincerely regret the errors.

**Table 5, Panel B: Child Nutritional Status**

<i>Number of meals eaten by children under 5 in past 24 hours</i>	3.17 (1.71)	0.33** (0.15)	0.05 (0.14)	0.28** (0.12)
<i>Diet diversity of children under 5</i>	2.31 (1.83)	0.18 (0.22)	-0.23* (0.17)	0.41** (0.16)
<i>Weight-for-height z-score</i>	-1.15 (0.96)	0.06 (0.12)	-0.03 (0.15)	0.09 (0.13)
Number of observations		543		

**Table 9, Panel C: Clothing Expenditures for Muslim Festivals**

Household spent money on women or children's clothing for festivals	0.44 (0.50)	0.10* (0.05)	0.03 (0.05)	0.07 (0.05)
Amount spent on children's clothing for festivals (CFA)	4604 (8213)	1,745.86* (892.33)	-363.42 (785.57)	2,109.28** (840.22)
Number of observations	1022			

**Table 10. Alternative Explanations**

	(1)	(2)	(3)	(4)
	<b>Cash average</b>	<b>Zap- Cash</b>	<b>Mobile- Cash</b>	<b>Zap- Mobile</b>
	Mean (s.d.)	Coeff (s.e.)	Coeff (s.e.)	Coeff (s.e.)
<i>Panel A: Access to Village-Level Infrastructure</i>				
Market located within the village	0.25 (0.44)	-0.02 (0.11)	-0.13 (0.10)	0.11 (0.09)
Zap agent in village	0.03 (0.18)	-0.05 (0.03)	0.01 (0.05)	-0.06 (0.05)
Number of Zap agents in village	0.07 (0.38)	-0.10 (0.08)	-0.05 (0.11)	-0.05 (0.05)
Number of observations	96
