

Anti-Trust Statement

PACT is a pre-competitive collaboration organized to gather and analyze data & information that informs and educates industry-wide use of a range of DCT solutions and their associated performance, value, and economic outcomes. It is the policy of the PACT consortium to conduct its activities in strict compliance with the antitrust laws of the United States. The Consortium will publish and present the results of its learnings and will make its consensus definitions accessible. If there is any doubt or question about Consortium discussion and activities, participating organizations agree to raise concern and collectively seek remediation.
