

Insect Sanctuary

**I don't use pesticides,
because:**

- Pesticides **POLLUTE** air, soil, and water.
- Pesticides **KILL BUGS WE LIKE** (fireflies! dragonflies! butterflies!) as well as ones we don't.
- Insects support **BIODIVERSITY** – birds, bats, fish, and other insects need insects to eat and feed their young.
- Insects are important **POLLINATORS**.
- **ONE MILLION SPECIES** are at risk of **EXTINCTION** worldwide, and pesticide use is a leading cause.
