

SEARCHING FOR OPPORTUNITIES in Environmental & Sustainability

- * **What type of experience am I looking for ?** on-site, remote, part-time, full-time
- * **What setting am I looking to complete an experience in ?** Outdoors, non-profit, government sector, corporate sustainability, etc.
- * **What skills do I already have and which skills do I want to develop?** Policy writing, research skills, on-site shadowing, management skills, etc.
- * **What locations would I consider working from ?** Your home state, Boston/Somerville, Remote, Other?
- * **Would I accept an unpaid internship? What pay rate do I need ?**
- * **How will I pace my search and how will I track my applications?**

use HANDSHAKE FILTERS (drop-down choices) as needed to vary or refine your search

Goal: To Brainstorm and Identify keywords based on your interests, experience, timeline, and desired role in order to make your search more effective.

Common Keywords	Specific AREAS of interest	Keyword (modifiers)	INDUSTRY	Employer Preferences (CLASS year)	Other options (Location, internship/full-time, work authorization, etc.)
renewable	conservation		Environmental Services	freshman	location
sustainability	greenhouse	summer	Natural Resources		OPT / CPT
climate	air quality	remote	Forestry	sophomore	paid
environmental	climate change	virtual	Animal & Wildlife	junior	specific skill-sets or competency
ecology	environmental health	on-site	Agriculture	senior	organization name
restoration	carbon footprint	seasonal	Utilities & Renewable Energy		
habitat	GIS	part-time / per-diem	Landscaping	graduation date	
	clean energy	temporary	Outdoor Recreation		
Role/ Position	vegetation	undergraduate	Energy		
intern	outdoors	full-time	Farming, Ranching & Fishing		
fellow	environmental policy	underrepresented students			
assistant	water quality				
volunteer	land management				
research intern	forestry				
research assistant	solar				
farm hand / gardener	green building /construction				
camp counselor	horticultural				
	garden (ing)				
	environmental compliance				
	hybrid				
	agricultural				
	international development				
	environmental engineering				
	Bachelor's degree in (___)
