Education and Me

Please introduce yourself through the lens of ONE experience with education. This piece should be no more than two pages, and one very thoughtful page is even better. You can approach the topic in any way you would like. You may want to describe a particular event, such as the first you were transported by a book or experienced the thrill of learning a new skill. It might be a memory of a teacher. Alternatively, you may want to describe the difference you experienced between classrooms in two or more countries. As long you write about you and learning, it's fair game.
